More Mouths Need More Stoves

Dear Lifeline Friends,

LIFELINE IS NOW ABLE TO BLESS even more children than ever before. **Over 2000 children are being fed five days a week.** These meals that are

provided many times are what keep the children from dying of starvation. We have seen such amazing changes in the children's lives over the last several years. The signs of malnutrition among the children are much less frequent and severe. The meals that Lifeline provides have more vitamins and nutrients than ever before.

Friends, we have continually added more and more work upon our cooks and they have done the best they can to this point with the current old fashioned stoves.

Our stoves are just not able to keep up with the added work any longer. Many of the stoves that we use now are overtaxed and continually need repaired.

They simply weren't made for the amount of work that has been placed on them. That is why we need your help

with this matter. We desperately would like to buy more of the heavier stoves like the one shown in this picture so that our cooks can do their jobs more efficiently and we can be more cost effective. **The stove pictured here costs \$700 U.S. We need to buy a minimum of three of these stoves** to allow our cooks to do the job necessary.

If you would please consider helping us with this very important need we would greatly appreciate it. If you wish to give to this project please write in the memo section of the check "stove project" so we can apply the funds appropriately.

Thank you very much for your help.

CIL Meets High Standards

CHILDREN'S International Lifeline has qualified to be a part of the **Combined Federal Campaign (CFC)**. This is where Federal employees and military personnel can donate funds to charitable organizations such as Lifeline. This means that **we have met strict eligibility requirements to ensure that the donations given to this mission is handled responsibly.** If you or someone you know that might work for the federal government or is in the military and participates in the CFC program we would greatly appreciate it if you would consider Lifeline as the organization that you donate to.

The CFC code that you should use for Children's International Lifeline is **90585**.

LOVE BUNDLE INSTRUCTIONS

1. Follow the guidelines of things to pack inside.
2. Lay a large towel (**please use a towel with the dimensions of 24 x 44 inches**) out flat. Place the items in the middle of the towel and then fold up the towel to hold the items inside. Pin the towel together with large safety pins, and then place the towel in a plastic shopping bag (Walmart, Target, etc.).
3. Make an **address label** (write your name, address and phone number on a piece of paper) and enclose a check for **\$5.00 for each bundle packed**. Place the address label inside the plastic bag. **Please remember that EVERY BUNDLE must have a completed address label.**

For more than one bundle, photocopy the address label and place a copy in each bag. One check may then be placed in an envelope for the entire number of bundles prepared. If you are sending several bundles, one check for each bundle shipped will do (10 bundles x \$5 = \$50 check). The \$5.00 covers all shipping costs from our warehouse in Kentucky to the distribution warehouse in Haiti. **The shipping fee must be included for all bundles sent or your bundle cannot be sent to the mission in Haiti.** Make your check payable to LIFELINE.

4. You may ship the bundle via U.P.S. or U.S. Mail to:

Children's Int'l Lifeline • 194 Sunset Drive • Clay City, KY 40312

5. BUNDLES MUST BE IN KENTUCKY BY: NOVEMBER 28

DO NOT SEND: Used clothing, toy guns, knives or war related items, money, your address, perishable items, food or candy, medicines, or breakable items.

NOTE: We are asking that you **NOT SEND** any food (except a jar of peanut butter) or candy because this results in a problem with drawing bugs and rodents into our warehouses. In purchasing clothing, if you are fixing a box for a two year old, then purchase a size 2 - a seven year old, then purchase a size 7, and so on. Please do not send winter or heavy clothing, as the climate in Haiti is very, very warm. Shampoo and conditioner or any other liquids should be well taped at the opening and then placed in a plastic ziploc bag to help prevent leakage.
